

SMART EDUCATION PLATFORM

Official Login Credentials & Access Guide

Generated: 09/09/2026

System Configuration

- Application URL: `http://localhost:3000`
- Backend Platform: Supabase PostgreSQL (Project ID: `gzejdomnlxlkhzhxwnc`)
- GitHub Repository: `https://github.com/Algorithm-Artist-ctrl/smart-education-platform.git`
- Authentication: Live Supabase Auth (Active & Verified)

Role-Based User Credentials

STUDENT

Aarav Sharma

Email: `student@smartedu.com` Password: `Student@12345`

Access to Student Dashboard, Adaptive Diagnostic Quizzes, Study Planner, Weak Topics & Revision.

TEACHER

Dr. Priya Verma

Email: `teacher@smartedu.com` Password: `Teacher@12345`

Access to Teacher Command Center, Assignment Authoring, Curriculum Publishing, and Class Analytics.

PARENT

Rajesh Sharma

Email: `parent@smartedu.com` Password: `Parent@12345`

Access to Parent Portal. View linked child academic progress, attendance & weak concepts (RLS isolated).

ADMIN

Vikram Malhotra

Email: `admin@smartedu.com` Password: `Admin@12345`

Access to Institution Administration. Cohorts, classes, subjects, enrollment, and user directory.

SUPER ADMIN

System Administrator

Email: `superadmin@smartedu.com` Password: `SuperAdmin@12345`

Platform-level governance. Multi-institution management, security telemetry, and audit logs.

One-Time Database Schema Activation (Required for Data Tables):

1. Open Supabase Dashboard: `https://supabase.com/dashboard/project/gzejdomnlxlkhzhxwnc/sql/new`
2. Open the file "supabase/full_setup.sql" from your repository, copy its full content, and paste it into SQL Editor.
3. Click "RUN". This creates all 20+ tables, RLS security policies, storage buckets, and seeds the full curriculum.
4. Start the app with "npm run dev" and log in with any of the credentials above!
